ABOUT LOWERS & ASSOCIATES

Lowers & Associates (L&A) is an internationally-recognized leader in providing Risk Management and Loss Prevention services. Offering a full range of solutions from assessment to mitigation to recovery, we're able to design, implement, and provide ongoing support to long- or short-term programs that respond to your organization's specific needs.

Whether we conduct a fraudulent claims investigation, audit for regulatory compliance, develop cyber security policies, provide litigation support, or advise on loss prevention, our experts draw upon their vast experience and expertise to provide a solution that is a perfect fit for your organization.

Risk Assessment • Audit • Investigation • Compliance

BACKGROUND

Our experts have extensive experience in such disciplines as risk management, accounting, law enforcement, physical security, information technology, and human resources. Our diverse professional backgrounds and depth of experience in these related fields allow us to zero in on your organization's needs and provide the appropriate solutions to reduce your risks and improve your bottom line.

L&A has expanded significantly from its roots in the loss prevention and alarms sectors – the pillars of our business when we began in 1981. But loss prevention is still at the core of everything we do today.

Two of our earliest clients were underwriters at Lloyd's of London. From our early work for Lloyd's in loss investigations and assessments of the gaming industry, fine arts, financial institutions, and armored car companies, we cultivated a broad-based expertise in risk assessment for the insurance market.

L&A is now equipped to handle much more than insurance-related risk assessments. During the past 25 years, we have expanded our assessment services, loss prevention programs, and claims investigations into a multitude of markets and specialty services.

L&A performs audits for corporate compliance with regulations governing how companies use and store data, reviews internal controls for fraud, implements security controls, and otherwise reduces enterprise-wide risk. Among other statutes and regulations, we help clients comply with the Gramm-Leach-Bliley Act, the Maritime Transportation Security Act, the Sarbanes-Oxley Act, the Chemical Security Act, and the Health Insurance Portability and Accountability Act.

PROVEN SOLUTIONS

Since the early 1990s, L&A has been a special advisor to one of the country's largest armored car companies, developing and assisting in management oversight programs for risk mitigation. The program began as a risk assessment and surveillance effort intended as a supplement to the company's limited in-house security staff. It now covers a wide range of services – from cash audits and IT security reviews to building a company-wide Business Continuity Plan. Furthermore, L&A provides broad oversight and counsel on policy development and implementation, including checks and balances for all levels of corporate controls.
