BACKGROUND INVESTIGATIONS

HUMAN CAPITAL RISK MANAGEMENT

Human capital – in the form of employees, contractors, and volunteers – simultaneously represents an organization's greatest asset and its greatest potential liability. Lowers & Associates (L&A) utilizes comprehensive background screening as a primary component in developing an enterprise-wide human capital risk management strategy.

Through our Proforma solution, L&A provides best practice employment screening programs that deliver tangible benefits to HR, Safety, and Risk Management. We achieve quantifiable results by balancing the competing influences of cost and risk tolerance, while delivering the information needed to make informed personnel decisions.
