PROVEN SOLUTIONS THAT REDUCE INTERNAL AND EXTERNAL RISK

FORENSIC ACCOUNTING

The most effective way to deal with fraud is to prevent it, and Lowers & Associates (L&A) offers specialized resources that steer clients clear of accounting problems. L&A has a highly skilled and multidisciplinary team that can effectively review and understand the elements needed to understand today's complex world of international transactions, including:

- ❑ Corporate Accounting
- ❑ Bank Records
- ❑ Internal Financial Controls
- ❑ Computer Records
- ❑ Other Documentation

L&A professionals can also provide expert testimony to support the forensic examinations that they conduct.

FRAUD

Our team of expert auditors, attorneys, fraud examiners, IT experts, and accountants delve into financial and operational controls, seeking out potential vulnerabilities and making fraud much more difficult to perpetrate. Upon detecting fraud at any stage, we help curtail it, investigate it, assist in the claims and recovery effort, and address the gaps that made the fraud possible.

Our experts identify and disrupt asset misappropriation schemes, corruption, fraudulent statements, and other fraudulent practices. We tailor fraud investigation programs that are uniquely suited to the client's environment and business practices. We also strengthen our client's systems of internal controls to halt fraud in its earliest stages or prevent it from occurring in the first place.

CLAIMS

L&A responds to a client's claim for most losses within 24 hours. We assess the loss quickly, collect and preserve critical documentation, obtain statements from employee witnesses, police as soon as possible, and provide a loss report to clients with all the supporting documentation.

We also ensure that claims are justified and financially accurate, and when possible, we mitigate the claims. Our investigators frequently work with federal and local law enforcement officials when they're needed to assist in recovery and prosecution.

Key among L&A's objectives is to ensure that clients only pay claims that are verified. Inaccurate, unsubstantiated, or inflated claims are a major concern. It is our position to make certain that our clients get the very best support to verify that the claim is legally justified and financially accurate.
